

NEW PRODUCTS 2022

"Pool Technology"

GEMAS

‘Our most famous and known quote “ Pool Technology”, GEMAS advances in manufacturing newly developed products in Turkey for World wide use.

Gemas has invested in

- 24 New Product in 10 different Categories
- 750 m² Indoor Rotational Mold Facility
- 750 m² Indoor Stainless Steel Facility
- 4000 m² Indoor Commercial Fiber Glass and Bobbin Wound Filter Manufacturing Facility includes Raw Material and Warehouse Capacity increases
- 2000 m² Plastic Filter Assembly Factory investment and has started manufacturing in this area
- 800 m² area added for electronics section to increase the 2022 capacity.

Our products being distributed to more than 52 countries worldwide. All products are manufactured under ISO 9001 Quality Assurance Certificate and necessary documentation. As well, main product groups Filters (Bobbin Filters) received several awards from TÜBİTAK and TEYDEP. GEMAS has over 20 patent/ or designed licensed product that helps and develops pool industry.

“Seljuk-BL”

- Made from PP Plastic and manufactured with Injection Technology.
- 500 mm - 630 mm ve 710 mm Filter Options
- GEMAŞ is the only Plastic Injection pool filter manufacturer in Turkey.
- GEMAŞ is one of the three manufacturer of 710 MM of Plastic Injected Pool Filter in the World.
- GEMAŞ will complete the production of Seljuk Family with the launch of 900 mm Seljuk Series by November 2022.

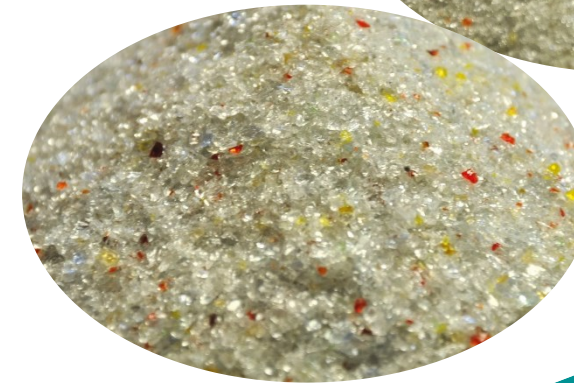

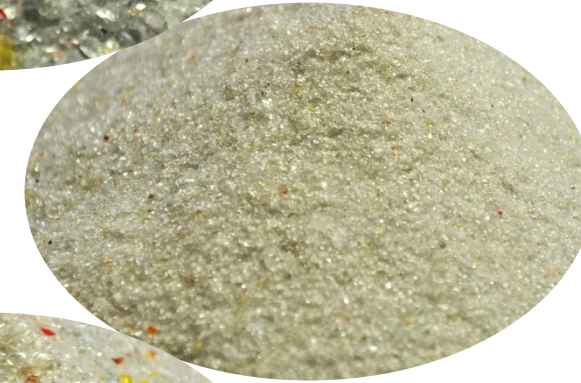

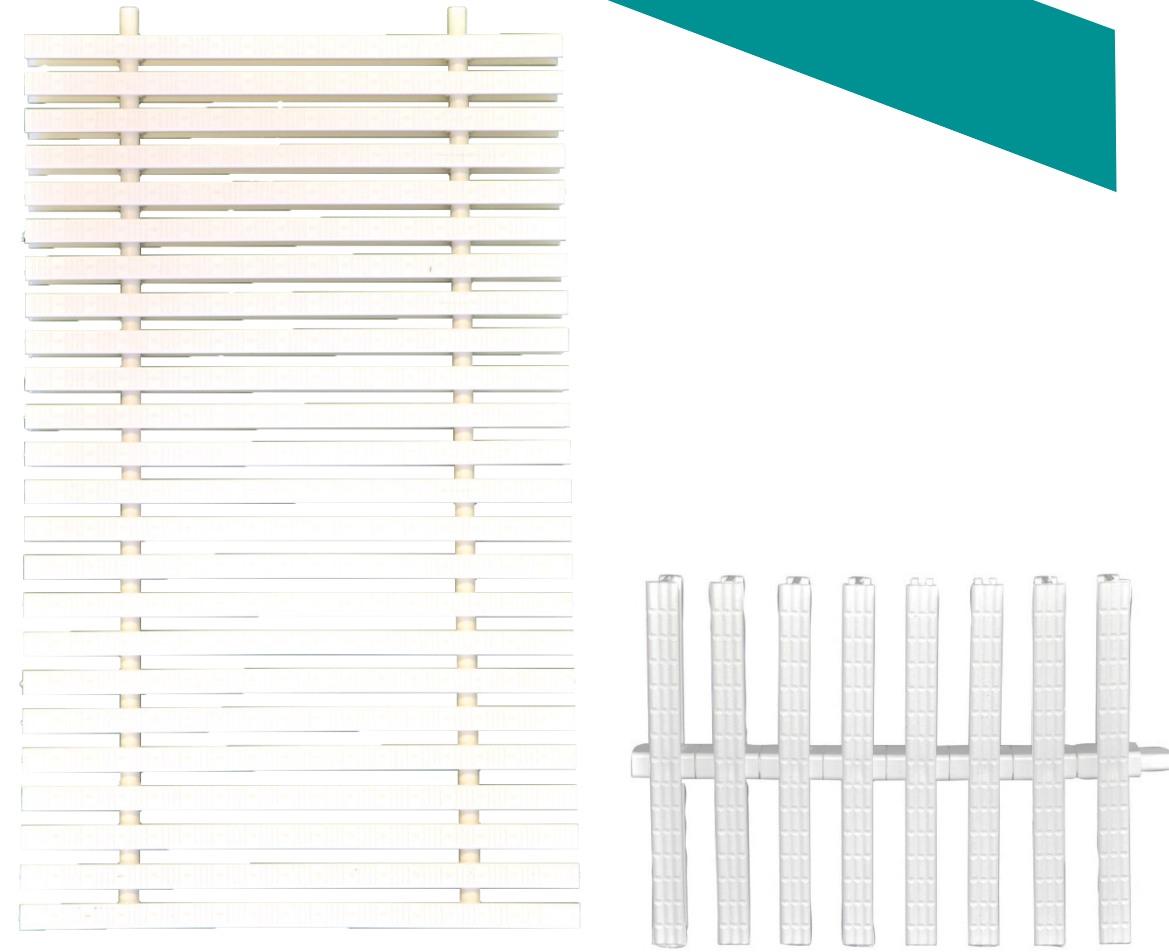

“Monocon”

- New addition to our FRP Filters available in d500 mm – d900 mm
 - Connections are located on one body and located at the bottom avoids the risk of unaligned connection
 - Filtration Media level is in the same level with the filter lamination joint
- Maximum Working Pressure is 2,5 bar and Testing Pressure is at 3,5 bar

“Glass Filtration Media”

- %100 Local Production
- Three different sizes for filtration systems
- Long Life Span and High Filtration Quality.

“OverFlow Grating”

- 15 cm Single Joint.
- 30 cm Double Joint GEMAS Manufactured has been added into GEMAS Portfolio

“Wide & Slim Mouth Skimmer”

- Product developed to cover up the height loss of the water in the pools.
 - Decorative Front Flange
- Optional Liner and Concrete Pool Models
 - Standard and Lux Add-On Options

“Full Body Stainless Steel Return and Suction Inlets”

- Full Body Kit is made of Stainless Steel
- Optional 304 and 316 Stainless Steel
- Acrylic or Stainless Ball Options for Side Inlet Nozzles
- 2” Threaded Connection
- Bottom Inlet Options for Adjustable Flow or Fixed Flow

“ Swivel Floor Inlet”

Flow Adjustable

- Made of ABS Plastic
- To be glued inside Ø 63 MM PM10 body
 - Flow Adjustable
- Specifically designed swivel body can be glued inside uneven cut bottom pipes.

“Maxi Clicker”

- Patented Wall Mount Led Design
 - Stainless Steel Frame AISI 304/ 316 Option
 - Easy Mounting Adaptor Kit for Liner Pools
 - Mini Midi Maxi Options Available
 - Decorational Pool and landscape lightning with stake or foot type
- Please visit the link for the product animation <https://f.io/zKgJctUv>

“Spot 12-13”

- 3 LED and 6 LED Spot Decorational Fountain Light
- Body kit is made of AISI 304/316 Stainless Steel
- Spot 12 (3 LED) model can be installed inside of d63 mm/ 10 Bar pip
- %100 Waterproof with Resin Isolated Cable Connection

“MICROCHROME”

- Full Body made of AISI 304/316 Stainless Steel
- 32 MM PN10 in Pipe simple and tightly installed
 - High Lumen 3W with 3 LED's
 - Resin Isolated against Leakages
- Family will be completed with 40mm and 50mm versions by June 2022

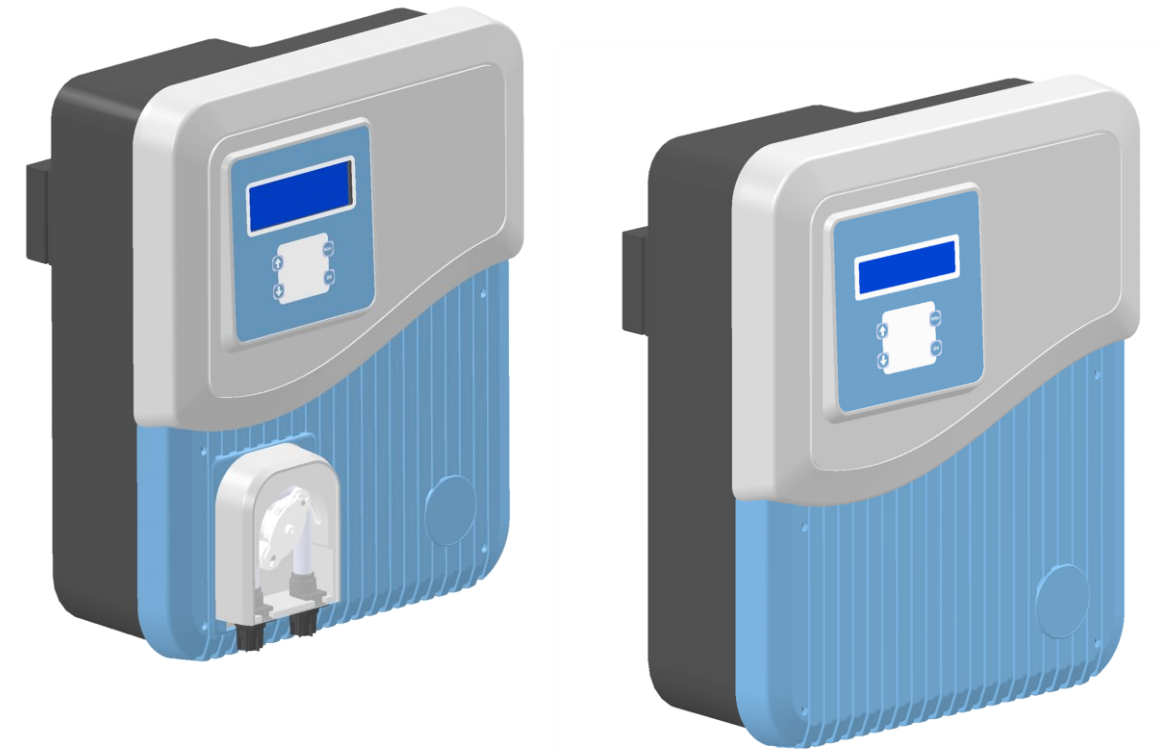

“Eco Pool Director”

- One Panel with 2 Peristaltic Dosage Pump includes PH/ RX Control
Economic Solution Based Product
 - Quiet and No Need For Maintenance Dosage Pumps
- PH and RX Electrode comes with remaining components for installement
 - Could be connected from external devices through MODBUS

“New Salt Water Chlorinator”

- Has 10-20-30 gr/h capacity options
- Upgraded wider front screen
- Easy Access to PCB from front panel
- Option to mount Persitalic Pump and Economical PH Controller

“ClearFlock Gel”

- Residential and Commercial Pool clarifier, being used in the front basket of the pump.
- ClearFlock Jel dissolves in flowing water during water passes between pump and filter
- ClearFlock shields Glass Filtration Media that creates porous texture and completes the task of capturing particuls 15 cm deep in the filtration media
- It sticks to the thinnest powder particuls and wipes off the algea by draining it.

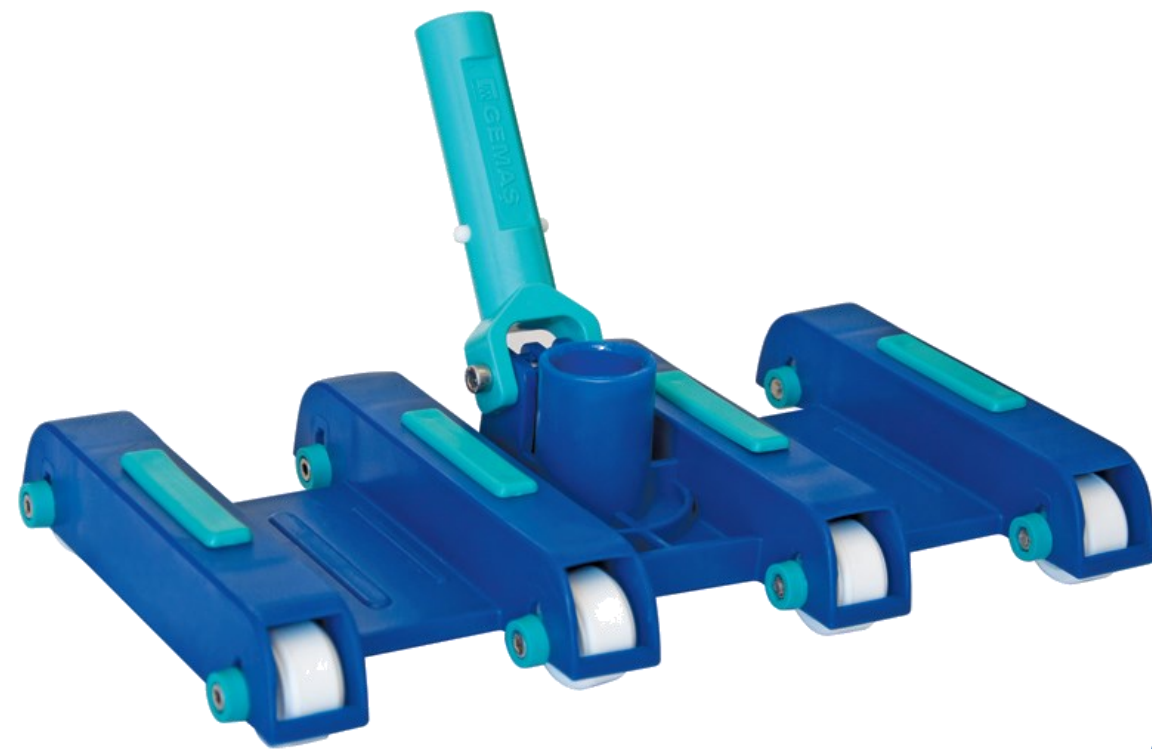

“Isolex Gel”

Two binding compounds with dielectric feature in one unique bottle to isolate the pool and repair minor cracks while providing a thermal characteristics

- High Stickness
- Ultra Strength Compounding Feature
 - All- In One Package
 - Long shelf time
 - Environmental Friendly
- Provides IP68 Class Isolation

“FLEX”

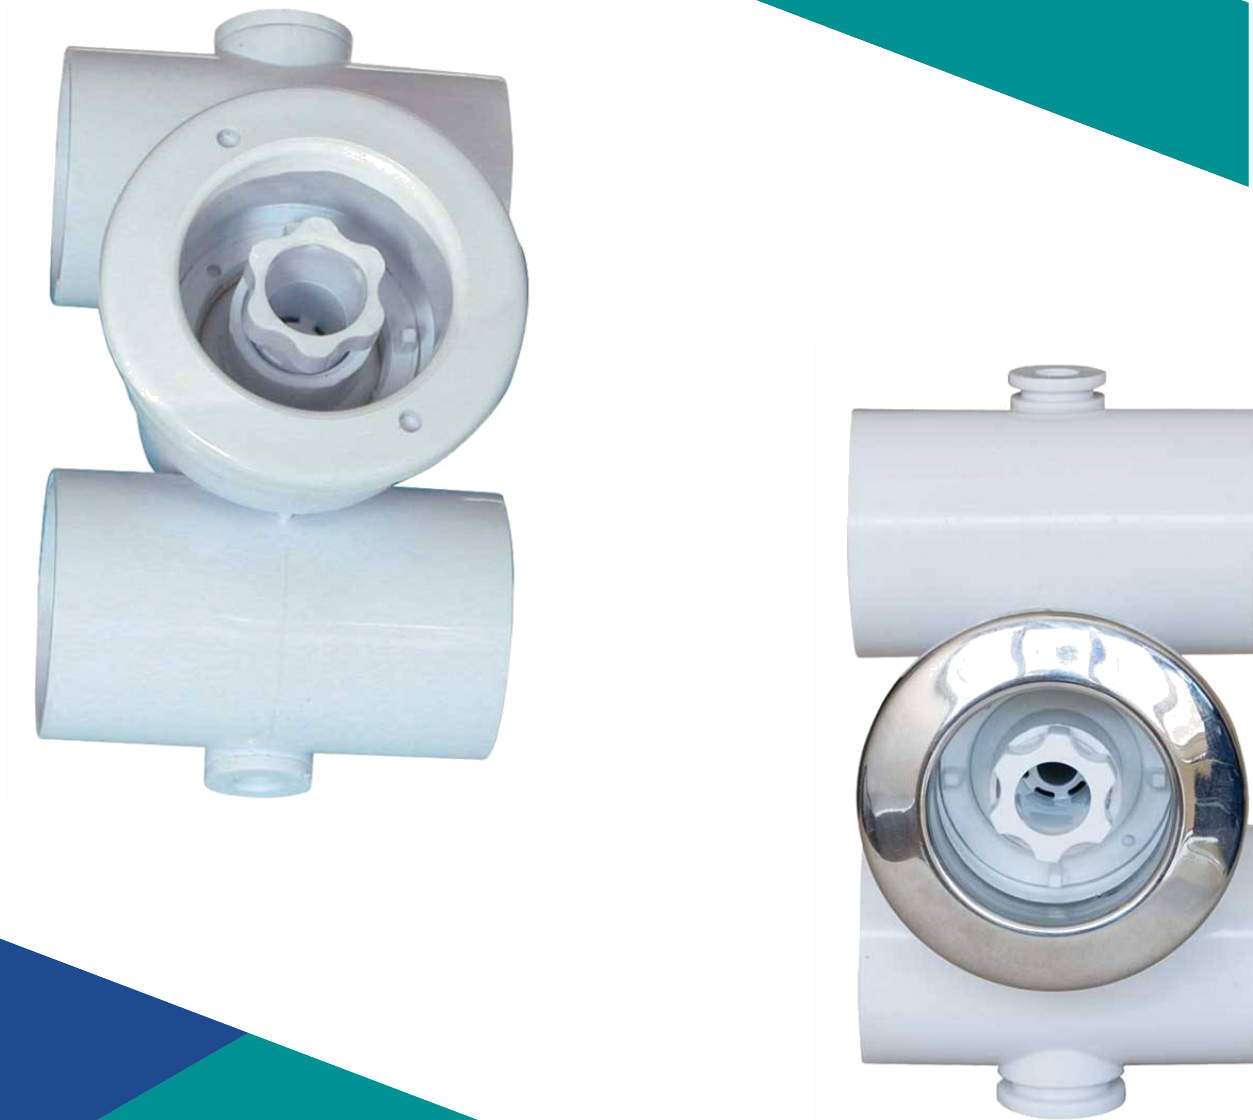

Pool Vacuum Head

- Plastic Body.
- Weights 2,5 kg
- Adjustable Wheels for Liner and Concrete Pools
 - 1 1/2” hose adaptable.
 - Handle connection with the clip.
- Optional Metal Handle for heavy duty use

“Ergonomic Seperator Tensioner”

- Outer Body is made out of plastic, inner structure is made out stainless steel
- It has an extended hook to protect to avoid unexpected releases
- Must be used with the stainless steel cord.
- Ready to use in a matter of minutes by using manual handle

“Massage Jet”

- Air Connection D50 & Water Connection D50
 - Adjustable inner jet kit.
- Optional Stainless Steel Frame

“PVC Butterfly Valve”

- Easy to Adjust Angle Feature
- Can be adapted to any universal electric or pneumatic actuator.
- Plain or Fully Flange Mounted Options
- 110 mm – 125 mm ve 140 mm %100 Manufactured by Fitvalf
 - 160 mm model will be released on July 2022
- 200/225 mm model will be released on November 2022

“Heavy Duty PVC Cement”

- Plastic Cover, manufactured by Fitvalf
- High Solvent Heavy Duty Formula
- With Brush or Without Brush Option
- Private Label Production Available Upon Quantity

Thank You
