

**LED – FLAT MODEL  
UNDER WATER LIGHTS  
FOR CONCRETE POOLS  
TECHNICAL DATA SHEET**

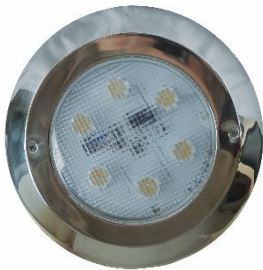

*“Pool Technology”*

**Introduction:**

**“Flat” Underwater Light Without Niche.** Made of white ABS plastic. Light screen in transparent polycarbonate. Supplied with 100W/12V bulb and 2.5 m cable.

**NOTICE!:** Light and PCB is sealed against water leakage. In order to prevent defects due to short circuit, the supplied cable (or an equivalent seamless cable) must be used without any underwater joints. If cable joint must be done under water, it has to be done with proper special underwater point. Otherwise the transformer could be damaged.

Optional AISI 304 and 316 face ring.
