

# AUTOMATIC VALVE BATTERY SETS

## FOR FILTERS

Motor activated PVC valve batteries with ball or butterfly valves for commercial sand filters. Complete with zinc plated Battery Support Sets and Clamp Support Systems. The valve is designed with 5 valve groups including Filtration, Backwash, Rinse, Recirculation and Waste functions completely. It is used with microprocessor control unit. In case of power failure, it can be controlled manually.

Designed to control operation of the Quintuple Motorized Valve Battery.

Easily deactivates the pump in case of excessive pressure.

In It stops and removes the pump in case of valve position changes.

Wi-fi connection can be added on request.

Keeps the last twenty backwash records of the filter in its memory.

It also saves the total filter uptime.

Code	Description	Pieces/Box
022135P	Control Unit	1
022135PS	Electronic Pressure Sensor	1
0221350WF	Wi-Fi addition	1
